### Cutting Instructions :

To make it easier to cut the exhaust we recommend removing it from the car. Find the 3 pairs of indents and use the middle pair to mark out the cutting line. Cut along the line and de-bur the edges. Re-fit the original GPF and fit the Scorpion GPF-back following the line diagram above.

A) Remove the electronic actuator from the original exhaust.

B) On the scorpion product fit the fixing bow into the valve and use the actuator to secure the bow in place.

C) Fasten the actuator to the valve ensuring the two straights on the fixing bow fit between the grooves on both of the posts.
