Car	Ford Fiesta ST MK8	Part No.	SFDS090C
Year	2018-Current	Fit Kits	332FK
Notes	Where not supplied use original fittings. The original exhaust requires cutting.	Features	Pipe Diameter:- 70mm

Estimated Fitting Time: 60 Minutes

To remove the original exhaust the system requires cutting in two places.

A) To remove the rear silencer you need to cut 100mm back from the centre of the bend going over the rear axel. (In the centre of the straight length of pipe).

B) To remove the rest of the original GPF back system cut 80mm from the centre mounting bracket. De-bur this edge as the Scorpion adaptor will fit over it.

C) Replace the rear three mounting rubbers with the uprated rubbers supplied in the fit kit.
