Car	Hyundai i30 N / N Performance	Part No.	SHYS101C
Year	2017-2019	Fit Kits	327FK
Notes	Where not supplied use original fittings. Does NOT fit with OPF/GPF Model's	Features	Pipe Diameter:- 76.2mm

A) After you have removed O.E exhaust you will need to swap the valve motor to the Scorpion exhaust. Remove the 3 nuts (keep them safe, as you will need them to bolt the electronic valve motor to your Scorpion Exhaust).

B) Lift up the motor. You will now be able to see the torsion spring (This must stay on the electronic valve motor to work with Scorpion Exhaust).

C) Rotate Scorpion valve so it aligns with the torsion spring.

D) Now fit the O.E electronic valve motor ensuring the spring seats correctly to the lugs of the valve.

E) Using the 3 O.E nuts secure in place.

Once happy with fitment of Scorpion Exhaust, fully tighten up all clamps and fixing and plug in the electronic valve motors.

STAY CONNECTED TO RED POWER.
